Data-Driven Strategy for Growth & Risk Mitigation

The Problem: Revenue Concentration

- 947 customers | ₹139.4 Crore revenue | 1,000 orders
- CONCENTRATION: 33% of customers = 66% of revenue
- HIGH RISK: Losing 10% of top customers = ₹9.2 Cr loss
- MISSED OPPORTUNITY: 667 mid-tier customers underdeveloped
- STRATEGIC QUESTION: How do we reduce risk & unlock growth?

The Opportunity: Multi-Billion Rupee Growth

Medium-Value upselling: ₹17-25 Crore potential

Low-Value conversion: ₹3.7 Crore potential

Geographic expansion: ₹5-10 Crore potential

TOTAL OPPORTUNITY: ₹25-35 Crore in 12 months

Customer Segmentation Overview

HIGH-VALUE (313 customers | ₹91.8 Cr | 66% of revenue)

→ Premium category preference | Metro cities | 112% repeat rate

MEDIUM-VALUE (321 customers | ₹37.4 Cr | 27% of revenue)

→ Balanced preferences | Only ₹58K away from High-Value!

LOW-VALUE (313 customers | ₹10.2 Cr | 7% of revenue)

→ Grocery preference | 101% repeat rate | Conversion potential

High-Value Segment: Our Profit Engine

313 customers generating ₹91.8 Crore (66% of total)

Average per customer: ₹2,93,419

Repeat purchase rate: 112.1% (most loyal)

Category preference: Electronics & Education (premium)

Geographic: Concentrated in metros (Bengaluru, Kolkata)

Strategic importance: Core profit driver, protection critical

Medium-Value Segment: The Goldmine

321 customers | ₹37.4 Crore | 27% of revenue

Average: ₹1,16,517 (only ₹58,846 below High-Value!)

Repeat rate: 103.7% (healthy purchasing pattern)

Current gap: Very close to High-Value threshold

UPSELL POTENTIAL: Moving 20-30% to High-Value

= ₹8.5-25 Crore additional revenue

Low-Value Segment: Growth Foundation

313 customers | ₹10.2 Crore | 7% of revenue

Average: ₹32,451 (early-stage or occasional buyers)

Repeat rate: 101.0% (still returning!)

Category: Concentrated in Grocery

Strategic value: Acquisition base for future growth

Conversion potential: 10% to Medium-Value = ₹3.7 Cr

Insight #1: Concentration = Risk + Opportunity

9x concentration ratio creates vulnerability:

→ 10% churn in High-Value = ₹9.2 Cr loss

BUT we've proven our value proposition at high end!

→ Can replicate success with 667 mid/low-value customers

Strategy: Protect core, grow the middle, convert the base

Insight #2: Medium-Value is a Goldmine

321 customers standing at inflection point

Gap to High-Value: Only ₹58,846 (achievable!)

Conservative: Moving 20% → ₹8.5-12 Cr additional

Aggressive: Moving 30% → ₹17-25 Cr additional

High ROI because these customers already trust us

Insight #3: Category Drives Customer Value

Clear correlation: Premium categories = Higher value

High-Value: Electronics & Education (30-40% margin)

Medium-Value: Balanced (15-30% margin)

Low-Value: Grocery focused (5-15% margin)

Action: Promote high-margin categories to drive migration

Insight #4: Loyalty is Universal

All segments show >100% repeat purchase rates:

- High-Value: 112.1%
- Medium-Value: 103.7%
- Low-Value: 101.0%

Implication: Product quality is NOT the issue

Challenge: Smart monetization, not customer satisfaction
